

Instructions

Create a learning log/journal which contains your overall quarter reflection as well as specific reflections for each major topic. You may either use the format below or adopt your own format.

Topics to Include

- 1. Introduction to Derivative (Includes everything before rules of Derivative)
- 2. Rules on Differentiation
- 3. Derivatives of Transcendental functions
- 4. Chain Rule
- 5. Implicit Differentiation
- 6. Higher Order Derivatives

Format

Quarter Reflection

Write your quarter reflection by answering the following guide questions?

- 1. How would you describe the quarter?
- 2. Which topic do you find most enjoyable? What made it enjoyable for you?
- 3. Which topic did you find most challenging? What made it challenging for you?
- 4. What quick notes do you have for
 - a. Your teacher
 - b. Your classmates, and
 - c. Yourself

Topic Learning Log

Topic Title: Introduction to Derivative

Write your topic reflection by answering the following guide questions?

- 1. What concepts under this topic did you find easy to learn? What do you think made them easy for you?
- 2. What concepts under this topic did you find most challenging? What do you think made them challenging for you?
- 3. What concepts did you find most interesting/inspiring? Why do you so?

Topic Title: ...
